POLICEMAN AND STRESS

A recent Phil Donahue program dealt with job related stress for the policeman. There would be less stress if they chose a different type of man for the job.

Here is what a typical policeman is like: He lacks confidence (low physical percentage) but has learned to cover it up or so it would seem from the untrained eye. He is naturally romantic but acts sexy instead. He puts on a macho act to cover up his feeling of inadequacy. Covering something up does not make it go away. It will erupt sooner or later & it could cause someone their life. It could be you or one of your family.

He is a man who is extremely emotional but has tried to cover that up too. He has to get his emotions out some way. He could go home & beat up the wife & kids or he could take it out on the public or even himself. It is important that the very emotional person get their emotions out in a loving way. If they do not they could become mean. The very nature of their job lets them be mean. If we would stop telling boys it is unmanly to be emotional we would not have such a need for police. If we stopped telling people they have to be sexy & manly we would not have so many people out there doing dangerous things to prove themselves. We can not be what is not natural for us. When we try to force it we become unhappy & are bound to take it out on others &/or ourselves.

A policeman is a man who needs to lead or control (high mental percentage). When the policeman walked the beat he was able to get to know the people & could lead them. Now that he is in a car, he has to control them instead.

The combination of needing to control & the lack of confidence makes a bully. Captain Bligh had that personality. He could be exceptionally brutal because he had complete control over the men on his ship. This type over reacts when they feel threatened. Because they are frightened they strike out verbally or physically and even with their guns. Bligh did it with whips & other cruelties.

We don't need more police, we need a different type. We need a person who has all high percentages. This is a dynamic person who does not get their kicks on picking on minorities, women (prostitutes) or the kids. This type of person would have the con-

PARENTS WITHOUT PARTNERS

If you are a single, divorced or widowed parent look up your local PWP Chapter in the phone book. No need to be alone. You'll have instant friends.

fidence to go after organized crime. Robert Kennedy was this type & got murdered for his efforts. If we had a lot of Robert Kennedys we would have less crime but we won't make it with the type of policeman we have now. What we have now is a man who is afraid, out there with a gun. A man who has been stifled emotionally ready to erupt any moment, a man who has to have power & because of his lack of confidence he over reacts & becomes a bully. This type of person would even start riots in order to be able to beat up some of the helpless defenseless public.

We have a whole force of men who would make good policemen gathered up already. The man who would make a good policeman tends to go into the fire department. They do not get their kicks picking on the helpless because they have a lot of confidence. They would not be afraid to go after the big trouble makers. The typical fireman is a dynamic person (all high percentages).

People are naturally attracted to this type. This is what we need in a policeman, someone we feel comfortable in going to. We can't feel that way when a man is a bully.

I have not done much research on policewomen. So far it seems the woman who joins the police force is different from the man who joins just as a nurse is different from doctors.

ERIK ESTRADA

Erik just came out of a miserable marriage & now he is planning to marry again (Beverly Sassoon). Erik born 3-16-45

Physical	4	(65%)
Emotional	4	(71%)
Mental	10	(39%)

He is a natural martyr (39% mental) & is attracted to those who will cause him trouble. His 39% mental makes him attracted to police at some time in his life be it thru trouble or as friends. Instead he is playing one in the TV series "CHIPS."

Erik is sexy (65% physical). He needs luxuries & to indulge himself. He will spend even when he can not afford it.

Erik is a natural father (#4 emotional). I have noticed that a lot of natural father types do not get married until their late 30s. Then they are so happy having a home & family that they wonder why they did not do it sooner.

Erik needs to be careful about getting involved with self destructive things. This includes bad relationships as well as drugs, alcohol, irratic driving or anything that is harmful or dangerous. He is not afraid (65% physical) so will rush in before he has given it much thought. They would do well to keep a biorhythm chart on him when he is filming.

Erik is attracted to the new & unusual and needs variety in what he does. He would have depressions and needs to keep busy learning new things. He would rather argue than be bored. When he is bored he would start something.

THE HONEYMOON IS OVER

President Ronald Reagan (born 2-6-11) has a medium amount of confidence (57%). He can not stand up to pressure from people who are stronger than himself. He has already knuckled under & has approved another huge amount of money to be given to Chrysler. He has given into this & will give into other things too.

Tax payers should not have to give their tax money to save a private concern especially when

the employees make more than the average worker.

If money is given to Chrysler it should be given to every business that is in financial trouble but it isn't.

Auto manufacturers have given us built in obsolescence so they could keep taking our money in new cars & repairs. Why don't all the people who make a living from Chrysler take up a collection to save their own company if they want it saved?

ANOTHER STRAW ON THE CAMELS BACK - President Reagan has asked Congress to give a $14,088 a year salary increase to members of Congress & top government officials. That would bring their salaries to $74,750 a year, plus generous benefits & allowances.

SCANDAL IN WASHINGTON DC

Rita Jenrette, separated wife of ex-congressman John Jenrette wrote a book "Diary of a Mad Congresswife", about,what it is like to be a congressmans wife. Her husband John is being investigated because of the ABSCAM scandal. He had also been charged with jury tampering, selling underwater lots & gun running.

John Jenrette 5-19-36
Physical 7 (39%)
Emotional 7 (50%)
Mental 32 (94%)

Rita thought John was being set up because he had done so much for his people. John is a natural humanitarian (#7 emotional). He would do for others even if he was doing for himself at the same time.

John has a typical politician combination-low physical percentage & a need for power (high mental Percentage).

Presidents John F. Kennedy & Lyndon B. Johnson, Ted Kennedy, Gov. Jerry Brown, Wayne L. Hays & a host of others with this combination get into politics. This combination would make a man a male chauvanist who would blame women for his problems. This combination also makes one a bully. A bully happens because the person naturally lacks confidence & over reacts when they fear they are losing power. Captain Bligh & J. Edgar Hoover also had this combination. Men like this like to get into positions where they have complete control & where the people under them are helpless. Is there anyone more helpless than the citizens of any country?

Rita claims there are a lot of homosexual politicians in Congress. She said they go to functions with the Barbi Doll type on their arms but they don't have sex with her. They don't tell on each other because she is ashamed to admit she was not sexually attractive to him & he is certainly not going to admit he likes men better or is not interested in sex.

This typical politician combination is also the same type of man who sexually harasses women on the job and who makes a big show of getting prostitutes for out of town visitors. (See March 1980 issue of THE TRUTH). This type of man is not very sexy & is afraid people will notice. They are really saying "Hey, look at me. I am a real man because I pretend to be sexy like society says I have to be."

I have done some research on homosexuality. I noticed most of the couples were only physically compatible & yet they called that person their best friend. With heterosexuals the best friend is usually emotionally & mental compatible but not physically.

I have noticed many of the homosexuals have a low physical/confidence level. Are they really homosexuals or are they just afraid to relate to the opposite sex? They would feel inadequate. As children they usually play with their own sex & would naturally feel more comfortable with them. Because of their fears do they turn to their own sex as adults? Because they are taught a real man is also a sexy man do they turn to other men because they are afraid they will be rejected by women? When they are having sex with that other man are they just saying they are sexy? Maybe they would rather not be having sex at all. Some people are asexual. It was believed by some that J. Edgar Hoover was this way (22% physical). If a man is not naturally sexy people might think he is a homosexual.

There are just as many non-sexy women as there are non-sexy men. Non-sexy men who need power will do macho things all for show.

Clergymen & policemen also have this combination. The clergyman does not have to pretend he is sexy.

People who have low physicals (confidence) feel more comfortable with people who are much

younger than themselves. The younger people are not so much of a threat because they are less experienced & are likely to look up to the older person. A lot of the men we see who date beautiful women who are much younger than themselves do it to show society they are "real men". It is more likely to be the low confidence/low sexual person who will do that.

As a cociety we create these problems ourselves by saying all men have to be sexy even if it is not natural for them. We need to let everyone be what is right for them. We have to stop saying all males should be this way & all females should be that way. The women's liberation movement should be called the Human Liberation Movement because that is what it really is. It is freeing all of us. The people who need it the most fight it the most.

TAX DEDUCTION

When I first paid income tax the deduction was $600 a person. That was in 1941. In those days a person could live simply for $600 a year. By not raising the deduction for years they were really taxing us more than they liked to admit outwardly. Now a person could live very simply for maybe $5,000 a year & that is what the deduction should be for each person. Our government is more interested in collecting taxes than they are in seeing that each of us can survive first. They have gotten extremely greedy.

I would like to see every government job pay less than non-government jobs. That would encourage people to get out of government jobs.

ATTORNEY GENERAL DESIGNATE

In the March issue of THE TRUTH I neglected to say that William French Smith, Attorney General Designate would be a good talker. He might have the "get them before they get me" attitude. He would be able to con people out of things for his own benefit. He needs to be careful about getting involved with things that are not on the up & up. That 46% mental he has means he would get involved with the police thru trouble or thru having them as friends or both.

GOOD WIFE/HUSBAND

People in the #21 thru 27 emotional range who have a low confidence (below 50% physical) tend to want to please and have trouble saying no. Even tho they are divorcing a spouse they might still give sex, might do the others laundry, might still help the spouse out and be at their beck and call.

If you have this combination in your personality STOP letting people use you RIGHT NOW. You know you hate yourself when you let others use you. When you say no you can use those energies for what you want. Learn to please yourself first. When you say no you will feel guilty but you will gain respect for yourself & like yourself much more. If it is not a value for value relationship you do not need it. For $1 & a self-addressed stamped envelope you can get your personal numbers.

BIORHYTHM COMPATIBILITY

Find out how compatible you are with anyone. Send 2 birthdates (month, day and year) and $12 for each compatibility to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311

WE NEED ROMANCE. Half the people are sexy & half are romantic. The romantic people are not getting anything for them on TV or in the movies. "I'm as mad as hell and I'm not going to take it anymore."

GIN AND VODKA can not be graded so you might as well buy the cheapest.
